Preventive
Maintenance
Program**

COMFORT CLUB MEMBERSHIP & PREVENTIVE MAINTENANCE PROGRAM

Proper HVAC maintenance can:

- INCREASE COMFORT
- LOWER OPERATING COSTS
- INCREASE SYSTEM CAPACITY
- INSURE LONGER EQUIPMENT LIFE

Long Term Benefits of HVAC Preventive Maintenance:

Energy Consumption

The HVAC system is likely the single biggest user of energy in your home. In fact, well over a third of the energy used in the United States is used to heat and cool buildings. According to the Consortium for Energy Efficiency (CEE) up to 50% more energy could be saved with the proper installation, sizing and maintenance of central HVAC systems.

Savings

Preventive maintenance plans typically more than pay for themselves through higher efficiency, lower utility costs, fewer system breakdowns and discounts on repairs when they do occur.

Peace of Mind

Proactive maintenance of your equipment will mean fewer breakdowns and longer life for your HVAC equipment. Every Comfort Club customer is ensured "PRIORITY SERVICE" if a system failure were to occur.
